

Make Waves

at Your Library

What's the problem?

In your newspaper, find and follow a story about a water-related problem.

- What's the problem?
- What's the cause?
- What's the effect?
- What are possible solutions?
- What's the likely solution?
- What's the solution that you prefer?

Write and submit a letter to the editor that explains the solution you prefer, or write and send a letter to a local government official explaining your preferred solution.

Visit Your Library!

Conduct research to gain more information about the water problem. Include a search of newspaper archives. Does additional information affect your thinking about the problem?
